

# The Clysar Contract Packaging Program

Our Film Protects Your Products. Our Program Protects Your Business.

Clysar recognizes the challenges contract packagers face. So we've designed a program to shrink risk, manage material costs, drive innovation and improve customer response. Count on Clysar for the best shrink film... and the best bottom line.

- **Competitive** film pricing
- **No upcharge** for less than 21-day lead times
- **No restocking charge** for film left over from your last job order (up to 10% of original order)
- **No folded film upcharge** when extremely fast delivery is required, and the equipment can run flat or folded films
- **Price freeze** for up to 6 months for your specific contracted price quotes
- **Sample stock program** so you can make samples quickly for potential customers
- **Priority status** for quick film delivery when required
- **Equipment support** programs with film purchase contract

Call 1-888-4-Clysar to learn program details and find your local Clysar Contract Packaging Support Expert. Or visit [www.clysar.com](http://www.clysar.com).

# Real Bottom Line Successes... from Clysar Shrink Experts

## *Increasing Uptime*

One contract packager shrinkwrapping thin books was experiencing labeling issues due to curling in the shrink tunnel. Switching to Clysar® LE Gold low-energy shrink film eliminated the problem, and delivered consistent packaging heights. The solution significantly reduced downtime and created beautiful packages.

## *Reducing Labor*

A sheltered activity center wasn't maximizing the speed and capabilities of a new high-speed side sealer. The problem was solved with a flighted infeed conveyor, which squared up the product and fed it into the tunnel at a controlled pace. A scale allowed workers to feed materials by weight rather than hand-counting them. Productivity went through the roof, packages were more consistent and the line required six fewer people to run.
